
European Council: agreement on support to Ukraine. EU Bishops (COMECE), a sign of continuity in our “efforts to support” the country “devastated by the war”

The Bishops of the European Union too applaud the 50 billion euros' support package for Ukraine that the 27 Heads of State and Government agreed on yesterday. In a brief comment sent to SIR, Comece (Commission of the Bishops' Conferences of the European Union) wrote: “We welcome today's agreement on the Ukraine Facility, a key element of continued EU solidarity efforts with war-torn Ukraine. We encourage EU leaders to maintain their unity and to remain committed to the European project”.
