
Coronavirus Covid-19: EU Commission, a common vaccine strategy. Joining economic and scientific forces, not creating competition among States

Since a safe and effective vaccine against Covid-19 is “key” to a “permanent solution” of the pandemic, today the European Commission is putting on the table of the Health Ministers of the EU member states, who will be having their regular meeting, a “EU vaccine strategy”, aimed to somehow race against time and provide enough supplies to the member states, while also taking global responsibility, in terms of access to and economic sustainability of the vaccine for everyone. 31
